

SOIL AND WATER ANALYTICAL LABORATORIES

DISCLAIMER: This list provides directory information on commercial firms that offer analyses of petroleum contaminated soil and water samples. All laboratories that are included on this list have provided a Quality Assurance Plan of professional quality, a list of all analyses performed, a list of all equipment used, a price list, and a list of the positions and qualifications of all employees. In addition, all companies on this list have indicated that they perform or in the process of implementing the VPH and EPH analyses according to Montana Department of Environmental Quality (DEQ) guidelines. The DEQ does not necessarily endorse any listed companies. We recommend that a prospective customer contact a number of companies for the best service and price. Listed companies reserve the right to evaluate the extent of their services on a case by case basis. This list is subject to change without notice.

(May 24, 2002)

Contact lab prior to sampling and shipping for proper procedures.
